Independent Auditor's Report on Special-Purpose Financial Statements

To the Board of Directors, Management,
and Inspector General of the
Pension Benefit Guaranty Corporation
Washington, DC

We have audited the accompanying reclassified balance sheets as of September 30, 2012 and 2011, and the related reclassified statements of net cost and changes in net position for the years then ended (hereinafter referred to as the special-purpose financial statements) contained in the special-purpose closing package of Pension Benefit Guaranty Corporation (PBGC). These special-purpose financial statements are the responsibility of PBGC's management. Our responsibility is to express an opinion on these special-purpose financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Office of Management and Budget (OMB) Bulletin No. 07-04, *Audit Requirements for Federal Financial Statements*, as amended. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the special-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the special-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall special-purpose financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

The accompanying special-purpose financial statements and accompanying notes contained in the special-purpose closing package have been prepared for the purpose of complying with the requirements of the U.S. Department of the Treasury's Financial Manual, Volume I, Part 2, Chapter 4700 (*TFM Chapter 4700*), solely for the purpose of providing financial information to the U.S. Department of the Treasury and U.S. Government Accountability Office to use in preparing and auditing the *Financial Report of the U.S. Government*, and are not intended to be a complete presentation of PBGC's financial statements.

In our opinion, the special-purpose financial statements and accompanying notes referred to above present fairly, in all material respects, the financial position of PBGC as of September 30, 2012 and 2011, and its net costs and changes in net position for the years then ended in conformity with accounting principles generally accepted in the United States of America and the presentation pursuant to the requirements of the *TFM Chapter 4700*.

By law, PBGC's Single-Employer and Multiemployer Program Funds must be self-sustaining. As of September 30, 2012, PBGC reported in its general-purpose financial statements, net deficit positions (liabilities in excess of assets) in the Single-Employer and Multiemployer Program Funds of \$29.14 billion and \$5.24 billion, respectively. As discussed in Note 9 to the general-purpose financial statements, loss exposure for the Single-Employer and Multiemployer Programs that are

reasonably possible as a result of unfunded vested benefits are estimated to be \$295 billion and \$27 billion, respectively. Management based the Single-Employer Program estimate on data for the fiscal year ending in calendar year 2011 that was obtained from filings and submissions to the government and from corporate annual reports. A subsequent adjustment for economic conditions through September 30, 2012 has not been made, and as a result the exposure to loss for the Single-Employer Program as of September 30, 2012 could be substantially different. In addition, PBGC's net deficit and long-term viability could be further impacted by losses from plans classified as reasonably possible (or from other plans not yet identified as potential losses) as a result of deteriorating economic conditions, the insolvency of a large plan sponsor or other factors. PBGC has been able to meet its short-term benefit obligations. However, as discussed in Note 1 to the general-purpose financial statements, management believes that neither program at present has the resources to fully satisfy PBGC's long-term obligations to plan participants.

U.S. generally accepted accounting principles require that the information in the Other Data Report number 14 be presented to supplement the basic general-purpose financial statements. Such information, although not a part of the basic general-purpose financial statements, is required by the Federal Accounting Standards Advisory Board who considers it to be an essential part of financial reporting for placing the basic general-purpose financial statements in an appropriate operational, economic, or historical context. This information is presented to supplement the basic special-purpose financial statements in accordance with *TFM Chapter 4700*. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information, and comparing the information for consistency with management's responses to our inquiries, the basic special-purpose financial statements, and other knowledge we obtained during our audits of the basic special-purpose financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The information in the sections entitled "Threshold" in FR Notes Report numbers 2, 3, 4A, 6, 7, 9, 14, 15, 19, 29A and 29B; the information in the Closing Package Line Reclassification Summary Report – Balance Sheet; and the information in the Closing Package Line Reclassification Summary Reports – Statement of Net Cost and Statement of Changes in Net Position are presented for purposes of additional analysis and are not a required part of the special-purpose financial statements. This information has not been subjected to the auditing procedures applied in the audits of the special-purpose financial statements and, accordingly, we express no opinion on it.

In accordance with *Government Auditing Standards* and OMB Bulletin No. 07-04, as amended, we have also issued a combined report dated November 14, 2012 (see PBGC's Office of Inspector General's report number AUD-2013-1/FA-12-88-1), which presents our opinion on PBGC's financial statements; our opinion on management's assertion about the effectiveness of PBGC's internal control over financial reporting; and our consideration of PBGC's compliance with laws, regulations, and its operations. That report is an integral part of an audit of general-purpose financial statement reporting performed in accordance with *Government Auditing Standards* and OMB Bulletin No. 07-04, as amended, and should be read in conjunction with this report in considering the results of our audits.

In planning and performing our audits of the special-purpose financial statements, we also considered PBGC's internal control over the financial reporting process for the special-purpose financial statements and compliance with the *TFM Chapter 4700*. Management is responsible for establishing and maintaining internal control over financial reporting, including the

Other Data Report, and for complying with laws and regulations, including compliance with the *TFM Chapter 4700* requirements.

Our consideration of the internal control over the financial reporting process for the special-purpose financial statements would not necessarily disclose all matters in the internal control over the financial reporting process that might be significant deficiencies. Under standards issued by the American Institute of Certified Public Accountants, a control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's special-purpose financial statements will not be prevented or detected and corrected on a timely basis.

As part of our audit of the general-purpose financial statements of PBGC as of September 30, 2012, we identified deficiencies in internal control over financial reporting (including safeguarding assets) and compliance with laws and regulations, and its operation that we consider material weaknesses and other deficiencies that we consider to be a significant deficiency. These matters are described in further detail in PBGC's Office of Inspector General's report number AUD-2013-2/FA-12-88-2. However, providing an opinion on internal control over the financial reporting process for the special-purpose financial statements was not an objective of our audits of the special-purpose financial statements and, accordingly, we do not express such opinion.

As part of our audit of the general-purpose financial statements of PBGC as of September 30, 2012, we identified an instance of noncompliance with selected provisions of laws and regulations. This matter is described in further detail in PBGC's Office of Inspector General's report number AUD-2013-1/FA-12-88-1. Our tests of compliance with the *TFM Chapter 4700* requirements disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards* and OMB Bulletin No. 07-04, as amended. However, providing an opinion on compliance with the *TFM Chapter 4700* requirements was not an objective of our audits of the special-purpose financial statements and, accordingly, we do not express such opinion.

This report is intended solely for the information and use of PBGC's Office of Inspector General, Board of Directors, management of PBGC, the U.S. Department of the Treasury, the Office of Management and Budget, the U.S. Government Accountability Office, the U.S. Congress, and the President in connection with the preparation and audit of the Financial Report of the U.S. Government and is not intended to be and should not be used by anyone other than these specified parties.

The signature is written in a cursive, handwritten style. It reads "Clifton Larson Allen LLP". The letters are fluidly connected, with a prominent 'C' at the start and a 'P' at the end.

Line	Question	Answer
1	Describe any significant events or transactions that occurred after the date of the Balance Sheet but before the issuance of agency's audited financial statements.	<p>1). Management evaluated subsequent events through November 14, 2012, the date the financial statements were available to be issued. Events or transactions for either the single-employer or multiemployer program, occurring after September 30, 2012 and before the financial statements were available to be issued, that provided additional evidence about conditions that existed at September 30, 2012 have been recognized in the financial statements.</p> <p>For the single-employer program, there was one nonrecognized subsequent event. Subsequent to September 30, 2012, business and financial conditions significantly declined for one controlled group that sponsors two single-employer plans (unfunded guaranteed liabilities of \$0.063 billion). Had these events occurred on or prior to September 30, 2012, PBGC's financial statements would have reflected an additional loss of \$0.063 billion resulting in an FY 2012 single-employer Net loss of \$5.939 billion and an FY 2012 single-employer Net position of \$(29.205) billion.</p> <p>For the multiemployer program, there was one nonrecognized subsequent event. On November 5, 2012, PBGC received a formal notice of a mass withdrawal termination from a multiemployer plan, resulting in the present value of financial assistance of approximately \$0.127 billion as of September 30, 2012. Had this event occurred on or prior to September 30, 2012, PBGC's financial statements would have reflected an additional loss of \$0.127 billion, resulting in a FY 2012 multiemployer program net loss of \$2.59 billion and a FY 2012 multiemployer program net position of \$(5.36) billion.</p>
2	Describe any departures from U.S. Generally Accepted Accounting Procedures (GAAP).	2). There were no departures from GAAP for the end of fiscal year September 30, 2012.
3	When applying the general rule of the Statements of Federal Financial Accounting Standards (SFFAS) No. 7, par. 48, describe the specific potential accruals that are not made and the practical and inherent limitations affecting the accrual of taxes and duties.	3). There were no such accruals that need to be noted for the fiscal year, September 30, 2012.
4	Describe any change in accounting if a collecting entity adopts accounting standards that embody a fuller application of accrual accounting concepts that differ from that prescribed by SFFAS No. 7, par. 48.	4). There were no changes in accounting for the end of fiscal year, September 30, 2012.
5	List all of the agency's components for which balances and activities are not combined into the agency's financial statements, and, therefore, are represented in the GFRS data.	5). There were no omissions of balances nor activity from PBGC's financial statements. All activity is represented in GFRS.
6	List all of the agency's components for which balances and activities are combined into the agency's financial statements, and, therefore, are represented in the GFRS data.	6). PBGC has two programs - The single-employer and the multiemployer program, in which both are combined on the agency's financial statements and, therefore, represented in the GFRS data.
7	Describe any additional significant accounting policies specific to the agency not included in GFRS Module GF006 - FR Notes.	7). There is no additional information to report for the end of fiscal year, September 30, 2012.

5	If the agency has restricted cash, is the restricted cash invested? If yes, is it invested in the Bureau of the Public Debt (BPD) security, agency security, and/or non-Federal security?	5). PBGC's restricted cash is invested in both federal and non-federal securities, within PBGC's trust fund.

Line Description	Question	Answer
Line Item Notes - Accounts receivable, gross (2012 - SEPTEMBER)	Please provide explanations for any amounts that have changed by 10% or more and or greater than 500,000 between the current fiscal year and prior fiscal year. (Unaudited)	In FY 2012 PBGC considered the collectability of termination premium receivables to plans that are in Chapter 7, 11, and 15 bankruptcy cases. As a result of our analysis we reduced the gross receivable and associated allowance for approximately \$886 million. The premium income associated with these receivables was reserved at 100%. Therefore there is no impact to the statement of operations in PBGC's financial statement.
Line Item Notes - Related interest receivable - accounts receivable (2012 - SEPTEMBER)	Please provide explanations for any amounts that have changed by 10% or more and or greater than 500,000 between the current fiscal year and prior fiscal year. (Unaudited)	This change is mainly attributable to increases in accrued interest on loans receivable for financial assistance provided to multiemployer plans.

Line	Question	Answer
1	Describe the method(s) used to calculate the allowances on accounts receivable.	<p>PBGC will calculate the FY 2012 Premium AR General Reserve using a 5 year rolling average of collection rates for Premium Statement of Accounts (SOA). As of September 30, 2012, the general reserve rate is 12%.</p> <p>PBGC will calculate the FY 2012 Termination Premiums Accounts Receivable Reserve using Termination Premiums for accrual basis plans that arose during a 5 year period greater than 3 years old. As of September 30, 2012, the termination premiums reserve rate is 91%.</p> <p>PBGC provides financial assistance to multiemployer defined benefit pension plans in the form of loans. Since these loans are not generally repaid, an allowance is set up to the extent that repayment of these loans is not expected.</p>
3	Explain any material difference between the balance of accounts receivable and the amounts reported on the Treasury Report on Receivables.	3). For the period ended September 30, 2012, there were no material differences between accounts receivable and the Treasury Report on receivables.
4	Provide any other relevant information pertaining to this note. At a minimum, describe briefly the significant accounting policies pertaining to this note.	<p>4). Under the accrual basis of accounting, receivables represent amounts due from others. They are accounted for as assets from the time that the events giving rise to such claims occur until the time they are collected.</p> <p>Receivables shall be reduced by an allowance risk for estimated uncollectible amounts. These estimated uncollectible amounts, and PBGC's policies and procedures for determining the estimates shall be disclosed. Such estimates shall be based on past experience, present market conditions, financial condition of the debtor, and analysis of outstanding balances. Allowances shall also be estimated for uncollectible interest and penalties accrued on delinquent payments of principal and interest.</p>

Line Item Notes - Single employer (2012 - SEPTEMBER)	Please provide explanations for any amounts that have changed by 10% or more and or greater than 500,000 between the current fiscal year and prior fiscal year. (Unaudited)	<p>PBGC's select interest factor decreased to 3.28% (for the first 25 years after the valuation date) at September 30, 2012, from 4.31% (for the first 20 years) at September 30, 2011. The ultimate factor decreased to 2.97% at September 30, 2012 (after the first 25 years) from 4.26% at September 30, 2011 (after the first 20 years). This decrease in interest factors resulted in an increase in the net loss of the single-employer program and an increase in the overall liability of the program.</p> <p>In FY 2012 the primary drivers of the net loss of \$5.876 billion included the following: \$3.927 billion actuarial charge due to expected interest; a charge for actuarial adjustments of \$0.229 billion; a charge of \$10.718 billion due to a reduction in interest factors (which has the effect of increasing benefit liabilities and actuarial charges); \$0.360 billion in administrative and other expenses; and a charge due to completed and probable terminations of \$2.006 billion. These amounts were partially offset by investment income of \$8.792 billion and net premium income of \$2.642 billion.</p>

Line	Question	Answer
1	Provide a description for the type of insurance or guarantee programs identified in the "Line Item Notes" tab.	1). PBGC operates two separate insurance programs for defined benefit plans. PBGC's single-employer program guarantees payment of basic pension benefits when underfunded plans terminate. The insured event in the single-employer program is plan termination. By contrast, in the multiemployer program, the insured event is plan insolvency. PBGC's multiemployer program financially assists insolvent covered plans to pay benefits at the statutorily guaranteed level. By law, the two programs are funded and administered separately and their financial conditions, results of operations, and cash flows are reported separately.
2	Provide the name, description, and the related amounts of the insurance or guarantee programs entered on the line titled, "Other insurance programs" in the "Line Item Notes" tab.	2). N/A
3	Provide any other relevant information pertaining to this note. At a minimum, describe briefly the significant accounting policies pertaining to this note.	3). The values of the PVFB are particularly sensitive to changes in underlying estimates and assumptions. (1) Trusteed Plans-represents the present value of future benefit payments less the present value of expected recoveries (for which a settlement agreement has not been reached with sponsors and members of their controlled group) for plans that have terminated and been trusteeed by PBGC prior to fiscal year-end. Assets are shown separately from liabilities for trusteeed plans. (2) Pending Termination and Trusteeship-represents the present value of future benefit payments less the plans' net assets (at fair value) anticipated to be received and the present value of expected recoveries (for which a settlement agreement has not been reached with sponsors and members of their controlled group) for plans for which termination action has been initiated and/or completed prior to fiscal year-end. Unlike trusteeed plans, the liability for plans pending termination and trusteeeship is shown net of plan assets. (3) Settlements and Judgments-represents estimated liabilities related to settled litigation. (4) Net Claims for Probable Terminations-In accordance with the FASB Accounting Standards Codification Section 450, Contingencies, PBGC recognizes net claims for probable terminations which represent PBGC's best estimate of the losses, net of plan assets, and the present value of expected recoveries (from sponsors and members of their controlled group) for plans that are likely to terminate in the future. The PBGC threshold for recognition of net claims for probable termination is \$50 million or more of underfunding. These estimated losses are based on conditions that existed as of PBGC's fiscal year-end. Management believes it is likely that one or more events subsequent to PBGC's fiscal year-end will occur, confirming the loss.

1	Describe the restatements to the prior year that resulted from correcting errors that occurred in the prior year (data reported in Sections A and B).	1). N/A
2	Describe any errors that occurred in years preceding the prior year that adjusted the prior-year beginning net position (data reported in Sections C and D).	2). N/A
3	Describe any immaterial errors that occurred in the prior period(s) that were corrected against the current-year operations (data reported in Sections E and F).	3). N/A
4	Describe any adjustments of the previous year (2011) reclassification in this year's (2012) Closing Package prior-year (2011) reporting (data reported in Section G), excluding amounts reported as restatements in Section A and B.	4). To ensure consistency and comparability of the information presented in PBGC's FY 2011 and FY 2012 financial statements and consistent with the presentation for the single-employer program, beginning FY 2012, losses from financial assistance in the multiemployer program have been reclassified to actuarial charges, credits, and adjustments. This provides improved transparency for those plans receiving and/or about to begin receiving financial assistance from the multiemployer program. In our FY 2011 Statements of Operations and Changes in Net Position, losses from financial assistance decreased \$99 million and actuarial adjustments increased \$37 million, resulting in a reclassification to the underwriting gain of \$62 million. Furthermore, in the financial portion of the Statements of Operations and Changes in Net Position, due to passage of time increased by \$52 million and due to change in interest rates increased by \$10 million, resulting in a reclassification to the financial loss of \$62 million. All such changes were reclassified within the FY 2011 Statements of Operations and Changes in Net Position, and have no impact on FY 2011 net position. Likewise, such FY 2012 Statements of Operations and Changes in Net Position reclassifications have no impact on FY 2012 net position.
5	Describe the adjustments to the current-year or prior-year beginning net position that resulted from changes in accounting principles as reported on the Reclassified Statement of Changes in Net Position, line 2.1 and/or line 3.1.	5). There is no other relevant information pertaining to this note.

Line	Question	Answer
1	Describe the risk insurance programs that are in force.	<p>1). Title IV of ERISA requires PBGC to provide mandatory insurance for defined benefit pension plans. PBGC operates 2 programs: one for the single-employer (SE) and the other for the multiemployer (ME) defined benefit pension plans. When an SE plan terminates and does not have enough assets to pay Title IV benefits to the participants, PBGC trustees the plan and pays benefits (up to the guaranteed limit) to the participants. PBGC does not trustee ME plans but provides financial assistance to the plan when it becomes insolvent (there are not enough assets to pay guaranteed level of benefits to participants). Insurance contingencies are the estimated aggregate underfunded vested benefits exposure to PBGC whose SE plans are classified as reasonably possible of termination. This amount as of September 30, 2012 was \$294,963 million.</p> <p>Additionally, PBGC estimates that, as of September 30, 2012, it is reasonably possible that multiemployer plans may require future financial assistance in the amount of \$27 billion. The comparable estimates of the multiemployer program's reasonable possible exposure for FY 2011 and FY 2010 were \$23 billion and \$20 billion, respectively. The increase in FY 2012 is primarily due to two large plans in the reasonably possible inventory. The sponsor of one plan, now with net liability of \$20 billion, is in the transportation, communication, and utilities industry category; the other, now with net liability of \$6 billion, is in the agriculture, mining, and construction industry category.</p>

4	Provide the nature of the litigation contingencies including the range of loss for reasonably possible contingencies.	4). A union representing participants of a plan has filed litigation in federal court against PBGC. They are challenging a PBGC Appeals Board decision denying participant shutdown benefits. An estimate of potential loss is \$68 million.
5	Provide the total claim amount for cases assessed as "unable to determine" if significant. Also, provide a statement on whether this materiality affects the financial statements.	5). N/A
6	Describe the other claims that may derive from treaties or international agreements.	6). N/A
7	Provide any other relevant information pertaining to this note. At a minimum, describe briefly the significant accounting policies pertaining to this note.	<p>7). In order for a plan sponsor to be specifically classified as reasonably possible, it must have \$5 million or more of underfunding as well as meet additional criteria. Criteria used for classifying a company as reasonably possible include, but are not limited to, one of the following conditions: the plan sponsor is in Chapter 11 reorganization; funding waiver pending or outstanding with the Internal Revenue Service; sponsor missed minimum funding contribution; sponsor has an S&P senior unsecured credit rating or an issuer credit rating less two notches of BB+ or below, or a Moody's senior unsecured credit rating or a corporate family rating less one notch of Ba1 or below; or sponsor has no bond rating but the Dun & Bradstreet Financial Stress Score is below the threshold considered to be investment grade.</p> <p>The Corporation calculated the future financial assistance liability for each multiemployer plan identified as probable, or reasonably possible as the present value of guaranteed future benefit and expense payments net of any future contributions or withdrawal liability payments as of the later of September 30, 2012, or the projected (or</p>

actual, if known) date of plan insolvency, discounted back to September 30, 2012. The Corporation's identification of plans that are likely to require such assistance and estimation of related amounts required consideration of many complex factors, such as an estimate of future cash flows, future mortality rates, and age of participants not in pay status. These factors are affected by future events, including actions by plans and their sponsors, most of which are beyond the Corporation's control.

The counterparties to PBGC's non-exchange-traded derivative contracts are major financial institutions subject to ISDA (International Swaps and Derivatives Association, Inc.) master agreements. PBGC monitors its counterparty risk and exchanges collateral under most contracts to further support performance by its counterparties.
10	Provide disclosures of the entity's accounting policy to offset or not offset derivative asset and liability positions on the Balance Sheet under a master netting agreement. Describe the accounting policy to offset cash collateral positions arising from derivative instrument(s) under a master netting agreement against net derivative positions (FASB ASC 815-10-50-7).	10). 11	Disclose amounts recognized for the right to reclaim cash collateral or the obligation to return cash collateral under master netting arrangements (FASB ASC 815-10-50-8).	11). PBGC receives cash and non-cash collateral for loaned securities under the securities lending program. The cash collateral amounts are recorded as assets and are offset with a corresponding liability. Transferors of financial assets in exchange for cash collateral cannot be distinguished from borrowing cash. Therefore, all cash collateral is recorded as an asset by the party receiving it (PBGC as the secured party), with a corresponding liability for the obligation to return it to the payer (obligor-custodian bank). The non-cash collateral is not recorded as an asset or a liability since PBGC does not have the right by contract or custom to sell or repledge the collateral.
12	Provide any other relevant information pertaining to this note. At a minimum, describe briefly the significant accounting policies pertaining to this note.	12). PBGC's derivative financial instruments are recorded at fair value and are included on the Statements of Financial Condition as investments and derivative contracts. Line	Question	Answer
1	Provide the indicators of the range of uncertainty around Federal insurance and guarantee programs related estimates and sensitivity of the estimates to changes in major assumptions (SFFAS No.5, par.114)	<p>1). Single-employer plans sponsored by companies whose credit quality is below investment grade pose a greater risk of being terminated. In addition, there are some multiemployer plans that may require future financial assistance. For FY 2012, Single-employer program's reasonably possible (RP) exposure to loss is \$294,963 million and the Multiemployer program's RP exposure to loss is \$26,809 million.</p> <p>The significant volatility in plan underfunding and sponsor credit quality over time makes long-term estimates of PBGC's expected claims uncertain. This volatility, and the concentration of claims in a relatively small number of terminated plans, have characterized PBGC's experience to date and will likely continue. Factors such as economic conditions affecting interest rates, financial markets, and the rate of business failures will also influence PBGC's claims going forward.</p> <p>In accordance with Section 450, PBGC's exposure to losses from plans of companies that are classified as reasonably possible is disclosed in the footnotes. In order for a plan sponsor to be specifically classified as reasonably possible, it must first have \$5 million or more of underfunding, as well as meet additional criteria. Criteria used for classifying a company as reasonably possible include, but are not limited to, one or more of the following conditions: the plan sponsor is in Chapter 11 reorganization; funding waiver pending or outstanding with the Internal Revenue Service; sponsor missed minimum funding contribution; sponsor's bond rating is below-investment-grade for Standard & Poor's (BB+) or Moody's (Ba1); or sponsor has no bond rating but the Dun & Bradstreet Financial Stress Score is below the threshold considered to be investment grade.</p>
2	Provide the actuarial or financial methods used to measure the present value of unpaid expected	2). The estimate of unfunded vested benefits exposure to loss for the single-employer plans

Line	Question	Answer
	losses (SFFAS No. 5. par. 114)	<p>of these companies was measured as of December 31, 2011. The reasonably possible exposure to loss in these plans was \$295 billion for FY 2012. This is an increase of \$68 billion from the reasonably possible exposure of \$227 billion in FY 2011. This reasonably possible exposure increased primarily due to the decrease in the interest rate used for valuing liabilities and low asset returns for calendar year 2011.</p> <p>Except in rare circumstances as indicated earlier in this footnote, the estimate of unfunded vested benefits exposure to loss is not generally based on PBGC-guaranteed benefit levels, since data is not available to determine an estimate at this level of precision. PBGC calculated this estimate, as in previous years, by using the most recent data available from filings and submissions to the Corporation for plan years ended on or after December 31, 2010. The Corporation adjusted the value reported for liabilities to December 31, 2011, using a select rate of 3.08% for the first 20 years and 3.37% thereafter and applying the expense load as defined in 29 CFR Part 4044, Appendix C. The rates were derived in conjunction with the 1994 Group Annuity Mortality Static Table (with margins) projected to 2021 using Scale AA to approximate annuity prices as of December 31, 2011. The underfunding associated with these plans could be substantially different at September 30, 2012, because of the economic conditions that changed between December 31, 2011 and September 30, 2012. The Corporation did not adjust the estimate for events that occurred between December 31, 2011, and September 30, 2012.</p>
